1. Open the folder named MyComputer and double-click on Control Panel. Click on the Internet Options icon, select the "Connection" tab and the "Setup" button. You will get the following screen. Choose the option to create an Internet connection manually and press "Next" to continue.
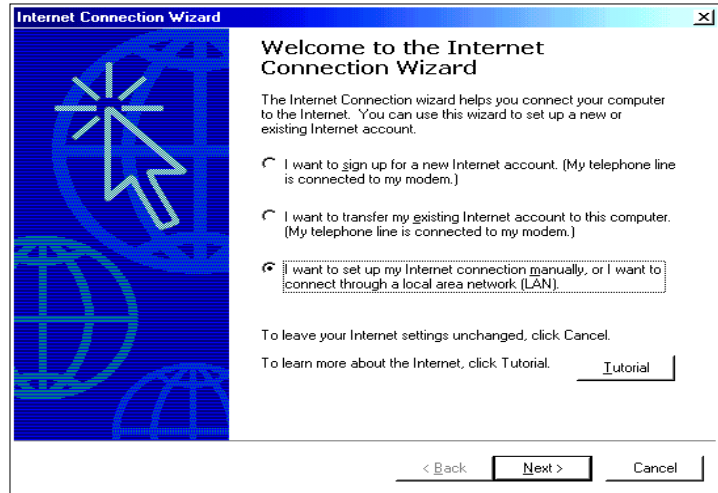

2. Select the option indicating "I connect through a phone line and a modem" and press "Next" to continue.

PR WebMasters (PRW.NET)
PO Box 9111
San Juan, PR 00908
Tel. (787) 723-5000
Toll Free (866) 723-6800
Fax (787) 722-6242
Support (787) 641-9800
Toll Free (866) 641-0800
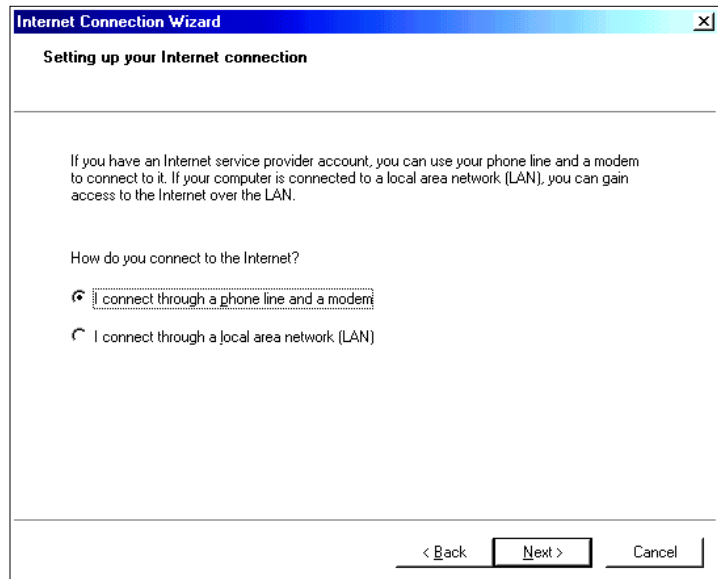

3. Enter the access number depending on your area or service according to the general setup parameters at the end of this document. If you are on the San Juan metro area, enter 787-641-9000. Remove the checkbox indicating "Dial using the area dial using area code and country code". Press "Next" to continue. **NOTE: You are responsible for determining the appropriate number for your location. ISP is not responsible for any long distance telephone charges.**
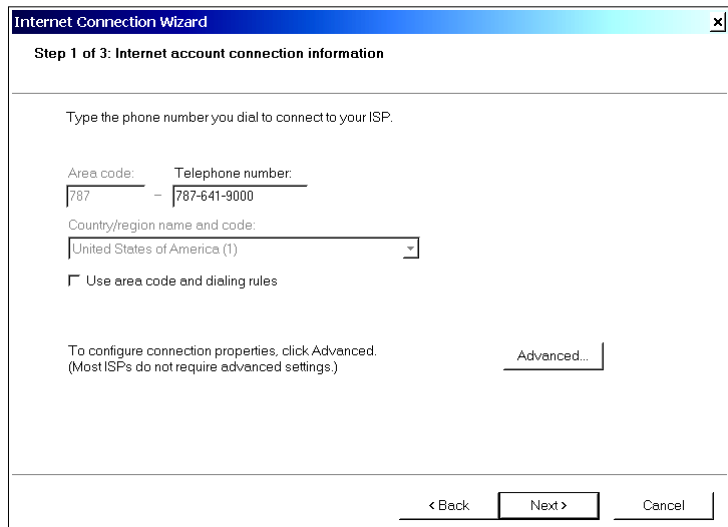

4. Enter the username and password you selected on the application form and click "Next". Note that these should be in lower case. Choose "No" if prompted to edit advanced account settings.

Internet Connection Wizard

Step 2 of 3: Internet account logon information

Type the user name and password you use to log on to your ISP. Your user name may also be referred to as your Member ID or User ID. If you do not know this information, contact your ISP.

User name: jjperez

Password: ********

‹ Back   Next ›   Cancel

5. Enter "prw" as the connection name. Press "Next" to continue.

Internet Connection Wizard

Step 3 of 3: Configuring your computer

Information about your Internet account is grouped together as a dial-up connection and labeled with a name you provide.

Type a name for the dial-up connection. This can be the name of your ISP or any name you want to use.

Connection name:
prw

‹ Back   Next ›   Cancel

6. Select "yes" to create an Internet Mail account and press "Next" to continue.

Internet Connection Wizard

Set Up Your Internet Mail Account

An Internet mail program is installed on your computer. Internet mail allows you to receive and send e-mail messages.

To successfully set up your Internet mail account, you must have already signed up for an e-mail account with an Internet service provider and obtained important connection information. If you are missing any information the wizard asks you to provide, contact your Internet service provider.

Do you want to set up an Internet mail account now?

◉ Yes

○ No

‹ Back   Next ›   Cancel

7. Enter the name you would like to use for email and click "Next" . Most people select their first and last names. You can also choose a nickname or your family name (e.g. Familia Pérez).

8. Enter your email address and click "Next". The format is username@prw.net where username is the user name you selected in the application form. Note that these should be in lower case.

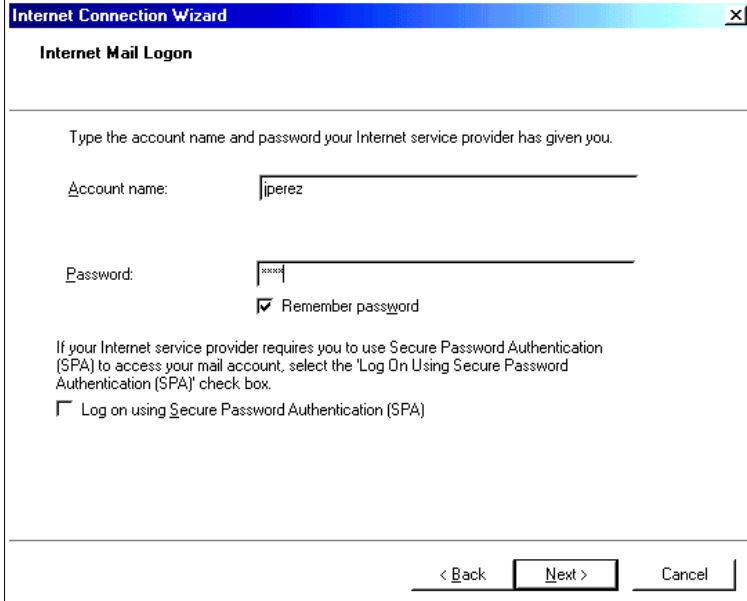

9. Enter the server names shown below and click "Next". If you would like to use IMAP on server type, enter imap.prw.net for your incoming mail server. Note that these should be in lower case.

Incoming: pop.prw.net
Outgoing: smtp.prw.net

10. Enter the account name and password you selected on the application form and click "Next". Note that these should be in lower case.
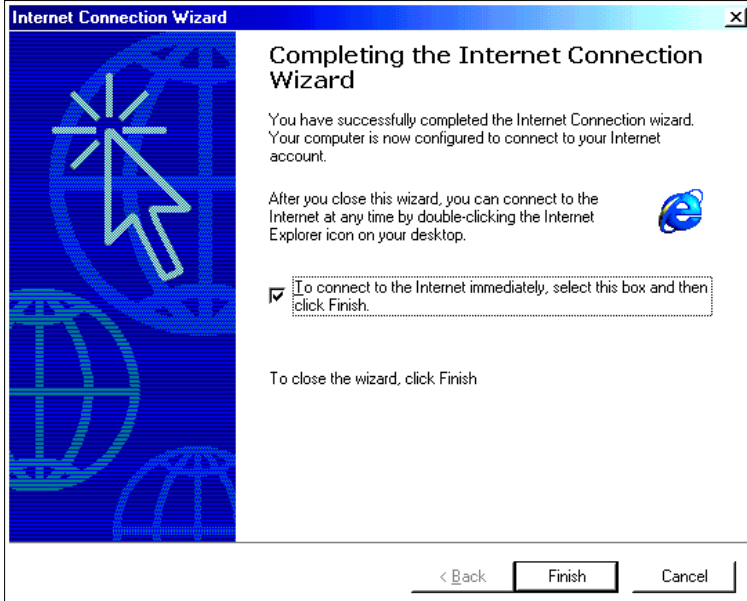

Internet Connection Wizard

Internet Mail Logon

Type the account name and password your Internet service provider has given you.

Account name: jperez

Password: ****

☑ Remember password

If your Internet service provider requires you to use Secure Password Authentication (SPA) to access your mail account, select the 'Log On Using Secure Password Authentication (SPA)' check box.

☐ Log on using Secure Password Authentication (SPA)

< Back   Next >   Cancel

11. Select "Finish" on the following screen to complete the configuration.

You are now ready to connect to the Internet. If you have any problems please make a note of any error messages and contact our support department at 787-641-9800 or 866-641-0800.
